## FILIPINO NINE COMING TO U.S.

Formidable Aggregation of Islanders That Worsted Star Teams of Japan Wants Games Here and in Other Cities

A team of all Filipino baseball players has invaded the shores of the United States after having cleaned up about everything that has come in its way throughout the islands of Japan. In competition with the well known teams of the Japanese University of Keio, Waseda and Meiji, the brown skinned citizens of the United States island possessions showed up remarkably well.

The team left Tokio bound for San Francisco on the last of the month following an energetic advance man who has trailed his offers of games all over the western part of the continent. And now he is about to head east. That advance man's name is A. P. McCann. He is not a Filipino, but a native of some other isles, which are said to be tributary to the police system of the city of New York if not to the United States proper. McCann can be found through his Frisco address which is care of Brittain and company on Market street.

That the Igorrates are willing—nay anxious—to visit Phoenix was the gist of a letter to The Republican in which Mr. Mack offers to accept an offer. In the course of their wanderings about the U. S. A. the islanders will pass through or near Phoenix and if they can get a game here, so much the better. The itinerary is not yet made up, but will depend on the inducements offered by the managers of the various teams. The number of games and the amount of guarantee should be stated in the first letter, says the Filipino manager.

The all-Filipino baseball club was organized last March in Manila under government inspection and the laws governing it for the purpose of promoting baseball in the Philippines, Japan and other countries of the orient. The club hopes to promote good feeling and fellowship between the countries and the orient. It also has the ambition of bringing the attention of the people of the United States to the fact that the Philippines are on the map in athletics much larger than dotted thereon.

The club plans to expand in other branches as conditions allow and will organize tours to other countries upon the completion of its present schedule in Japan and the United States. Other branches of athletics will be taken up in the future. The present tour is in the nature of a test and an introduction to Japan and the states.

The team is composed entirely of Filipinos. There are 14 native players under the supervision of Alejandro Albert, president of the club, and the management of E. Frank Willets.

The team includes the best players in the islands. Most of these young fellows have made reputations for themselves locally. They have had considerable experience considering the time that baseball has been played in the islands. For the present tour, the team has been whipped into standard form by playing strong American teams almost exclusively for the past six months.

It may be recalled that this team trounced the formidable Waseda combination in the carnival series at Manila last winter. This may serve as a help in gauging the strength of the "All-Filipinos." The team that Waseda sent to Manila last winter was practically the same as that which made the tour in the United States. It is remembered as one of the most powerful and best trained nines that ever showed up at Totsuke grounds. And this machine was sent to smash by the Filipinos.

One of the most interesting features of the contests was that two oriental peoples competed in the American game which was taken up by them about the same time.

## STARTS ON VOYAGE INTO SOUTHERN SEAS

Dr. E. E. Prowell Will Encircle South America.

Dr. E. E. Prowell left yesterday for New York whence he will sail on the steamer Vestris on a tour of the south which will take him around South America. He will first go to the West Indies and then will begin the long southern dip, stopping at Bahia, Santos, Buenos Ayres and Montevideo. He will pass through the Straits of Magellan and up the west coast.

The first stop will be at Punta Arenas, (Sandy Point), which has the distinction of being the southernmost city of the world but it will not be a city much longer. Though it has paved streets, electric lights and all modern improvements, there will be no excuse for its existence after the opening of the Panama canal and it will then be abandoned. Other stops will be made by Dr. Prowell at Valparaiso, Santiago and the Canal Zone. This is the third of the long world tours made by Dr. Prowell. Two years ago he visited New Zealand and the South Sea Islands and a year ago he circumnavigated the globe and learned among other things to eat raw fish like the Japanese, though he did not stick to that diet long enough to uncross his fingers and say that he liked it.

As on his former trips, Dr. Prowell is carrying a lot of Salt River valley literature with him to distribute and he will also try to get the name of Phoenix in as many foreign newspapers as possible.

## TRADE BOARD'S MAY BULLETIN

All News of the Progress and Development of City for Month Ending June 1 Noted By Board of Trade

What Phoenix Is Doing

There are 3500 telephones in the City of Phoenix.

City water works is now handling 3,700,000 gallons every 24 hours.

Work on the Salt River bridge at Tempe is progressing rapidly. Work on the state highway to connect with bridge has now commenced. The improvement of road conditions is noted everywhere in Maricopa county.

The list of names at Phoenix post-office includes 27,000 entries. The rapid growth of postal business, is certain indication of the substantial development of Phoenix and the surrounding country.

The incorporation of another Country club near Phoenix is recorded under the name of the Valley Field club. The institution has already secured a location near the city on splendid property, which has a beautiful house and grounds.

Many new buildings are planned for Phoenix and include \$75,000 store building, hotel addition to cost \$15,000; warehouse property \$40,000; railroad office building \$75,000; hotel and store \$75,000. Home building continues very active.

A real estate deal for ranch property approximating \$125,000 was made during the past month. Realty transactions continue very active, and there is a very good demand for farm properties. The increase in the number of small farms is splendid.

The park adjoining federal building is now being laid out under the direction of city engineer. Plans for securing another park within city limits are being considered by authorities. Phoenix will soon be well supplied with park places.

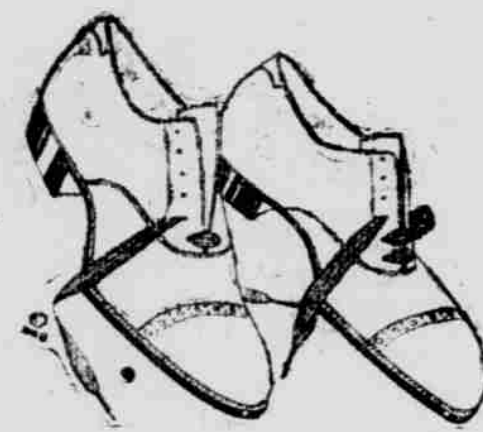

Indicative of the steady advance in prices of all property in Phoenix and Salt River valley is the sale of a block on Washington street for \$36,000. This property was bought three years ago for \$10,000, and has cost the owner in all to date about \$15,000. Net profit \$21,000.

Many plans for auto races for Arizona state fair are being considered by special committees of board of trade. Races will be run from El Paso and Los Angeles and San Diego. Big purses will be offered by Phoenix and fair commission, and a long list of entries for each event is expected.

The final tests of the new power plant at Arizona Falls, part of the Salt River system have been made. This item of power system will supply a total of 1500 horsepower. Work on other power units is progressing rapidly. Total power development of the project under the present plans 27,000 horsepower.

Plans for a cotton gin to be erected at Mesa are well under way. There are about 4000 acres in Egyptian cotton and there will be plenty of employment for a large number of pickers. Good wages will prevail and opportunities for persons to get a start are being offered upon very liberal terms.

The advantages that Arizona offers to the tourist and pleasure seeker are unlimited. Wonderful sunny days with cool, clear nights prevail in the Salt River valley. Resorts with ample accommodations for many visitors are near by. Within easy ride are mountain camps which afford good hunting and fishing. Visitors are delighted with the attractions and larger numbers of guests are continually arriving.

## Our Shoe Man Says---

that the reason we are doing such a "land office" business in shoes is because we're giving values always a bit in advance of the other fellow. It's bound to bring them in, says he.

If you haven't seen our window display of summer models in tan and black leathers, white grey and brown canvas and buckskins you're missing something.

**Goldbergs**

The bulletin was accompanied this month by a report of the president, reprinted from the Arizona Republican.

## ULCERS AND SKIN TROUBLES

If you are suffering with any old, running or fever sores, ulcers, boils,

eczema or other skin troubles, get a box of Buckler's Arnica Salve and you will get relief promptly. Mrs. Bruce Jones, of Birmingham, Ala., suffered from an ugly ulcer for nine months and Buckler's Arnica Salve cured her in two weeks. Will help you. Only 25c. Recommended by all druggists.—Advertisement.

## SAVE MONEY ON PLUMBERS SUPPLIES

Place your next order with Arizona's new wholesale plumbing house and get the benefit of quick shipment and lower prices. Write for prices on iron pipe, valves, vitrified pipe, bath tubs, lavatories, toilets, boilers, water heaters, etc.
